Nowadays we have war and not all people can travel abroad to rest. However our country is really beautiful and there are a lot of things that we can do. I wanna tell you about staycation in Ukrain.

If I wanna spend my next holidays at home, I would spend it with my family. I think that we maybe will go to somewhere in our city. For example, cafe, cinema, theatre, museum or just walking around the city. Also we can make party at home and have fun. But maybe we will want to go somewhere with a beautiful landscape and nature. I have in mind that we maybe go to the Bukovelc in order there is everything that we need. There is a lot of hotels where we have ability to do everyday affairs, swimming and brown. Likewise there is a nature that can not be described and really cute animals.

But if you go here in winter you can go skiing or snowboarding, go up the lift and see the winter scenery and a lot of another winter things. Also there is a lot of winter fairs where you can see Santa Claus, enormous Christmas tree and by some sweets and souvenirs.

In conclusion, i would say that it all depends on the person. If you wanna stay at home and have fan there so just do it but if you are able to ride some kilometres to reach really idescribable scenery then i recomend you to do that because it wil be memories to last a lifetime.
